

Branding is an important element in the marketing management process cycle, playing a key role in marketing strategy formulation.

Brand – what is it?

... a product or service to which (consumers) attach a bundle of **tangible** (functional product and service characteristics) and **intangible** (emotional and/or symbolic) meanings that add value

A brand has one strategic purpose and that is to differentiate itself from competitors.

(Source: *ESOMAR online glossary*)

Brand name and logo
for instant recognition

**Interaction among
Key Branding Elements**

Brand associations: product promise and performance, tangible and intangible benefits, relevance to customers’ needs and expectations

Brand identity: who am I? A me-too? Or someone unique?
